Profesional Summary

Passionate full-stack developer and fresh Information Systems graduate with hands-on experience building real-world systems across the complete software lifecycle — from requirements analysis to deployment. Specialized in Laravel and React with proven results, including a copyrighted citizen administration platform and an industrial fuel-monitoring tool that won 2nd place at Kideco Innovation Challenge 2026.

Technical Skills

Software Engineering Practices

Requirements Analysis, UML Modeling, SDLC, System Analysis & Design, RBAC, GitHub, Docker

Web Development

Node.js, Laravel, PHP, Python, FastAPI, RESTful API, API Design & Integration, React.js, Next.js, Vue.js, Tailwind CSS

Database Management

MySQL, PostgreSQL, MongoDB, Firebase Firestore, Supabase, Schema Design, Query Optimization

IT Project Management Tools

Jira, Taiga, Notion

Education

Kalimantan Institute of Technology — Bachelor of Computer Science • 3.7 GPA
Information Systems — Balikpapan, Indonesia • Aug 2022 - Jul 2026

Concentration in Web-Based Information Systems Development. Relevant Coursework: Web Programming, Database, Object Oriented Programming, Structured Programming, Software Engineering, Data Mining, Business Intelligence, Cloud Computing, User Interface and User Experience Design, Information System Security, Information System Project Management.

Experience

Kalimantan Institute of Technology — Balikpapan, Indonesia
Teaching Assistant - Cloud Computing — Aug 2025 - Dec 2025

- Mentored student teams in building full-stack web applications using Laravel, React, and MySQL
- Guided implementation of CI/CD pipelines through GitHub Actions
- Coached teams in adopting role-based Git collaboration workflows (QA, backend, frontend)

Kalimantan Institute of Technology — Balikpapan, Indonesia
Teaching Assistant - Software Engineering — Feb 2025 - Jun 2025

- Facilitated 16 weeks of Software Engineering coursework across multiple project groups
- Guided students through structured software development documentation, including SKPL, DPPL, DLPA, and DUPL
- Provided hands-on feedback to strengthen requirements analysis and design documentation practices

Balikpapan City Tourism, Youth, and Sports Agency — Balikpapan, Indonesia
Full Stack Developer (Internship) — Des 2024 - Feb 2025

- Developed a full-stack Tourism Information System as part of a field internship program

- Handled end-to-end development lifecycle, including requirements analysis, UML modeling, database design, frontend and backend implementation, testing, and deployment
- Collaborated directly with agency staff to translate operational needs into a functioning digital system

Projects

Kideco Matrix - Contractor Fuel Ratio Monitoring & Analytics Aug 2026

Built a monitoring platform diagnosing a 17% fuel ratio variance via a deterministic decomposition engine isolating equipment productivity from fleet inefficiencies. Processed 51,000+ PostgreSQL records in real-time with automated validation guardrails and a locked approval workflow. Won 2nd Place at KIDECO Innovation Challenge (KIC) 2026, recognized by PT Kideco Jaya Agung.

Github

INTERSI-ITK (ITK Information Systems Internship Management) Jan 2026 - Jun 2026

Built a Laravel system digitizing student internship workflows—submission, verification, advisor allocation, and evaluation—replacing a slow manual process. Designed role-based access control across three user roles with tailored dashboards and real-time notifications, backed by an optimized relational schema.

SI-RT (RT 36 Wonorejo Digital Neighborhood System) Feb 2025 - Jun 2025

Developed a self-service app for residents to request official letters and access community info without visiting the neighborhood head in person. Added transparent cash bookkeeping and announcement features with a responsive, all-ages-friendly UI. Officially registered under Indonesian Copyright Law.

Certifications

UI/UX Design Training – From Idea to Reality Oct 2024

Student Association of Information Systems

Junior Web Developer Workshop – Becoming a Full-Stack Developer Oct 2023

Student Association of Information Systems

JavaScript Programming Feb 2023

Dicoding Indonesia

Awards

2nd Place Winner – Hackathon Category, KIDECO Innovation Challenge (KIC) 2026 2026

PT Kideco Jaya Agung (Indika Energy Group)

Won 2nd Place by engineering Kideco Matrix, an SPO-based Contractor Fuel Ratio Monitoring & Analytics platform. Officially certified under Certificate No. 2618/IT10.1/AK.05/2026, issued by the HSE & Sustainability Director of PT Kideco Jaya Agung.

Registered Copyright – Computer Program, SI-RT Wonorejo 2025

Ministry of Law and Human Rights of the Republic of Indonesia (Directorate General of Intellectual Property)

Officially registered intellectual property recognition for developing a Laravel-based digital neighborhood administration system serving RT 36 Wonorejo, Balikpapan.
